World Leprosy Day is observed internationally every year on the last Sunday of January to increase the public awareness of the Leprosy or Hansen's disease. This date was chosen by French humanitarian Raoul Follereau as a tribute to the life of the Mahatma Gandhi who had compassion for people afflicted with leprosy. It is one of the oldest recorded diseases in the world. It is an infectious chronic disease that targets the nervous system, especially the nerves in the cooler parts of the body - the hands, feet, and Face. The College has conducted Sparsh Leprosy Awareness for students they took oath and reveal their patriotism. It was held on 13.10.2014.
